Gentlemen:

With reference to the above, please be advised that this Division is unable to administratively approve the drilling of the above wells until the following information has been submitted for review:

- a) The footage location given on said applications do not conform to Utah's wildcat well spacing as outlined under Rule C-3, "General Rules and Regulations and Rules of Practice and Procedure" (copy enclosed). Should said location be necessary due to topographical and/or geological conditions, it is necessary that a letter be filed indicating such (see Rule C-3(c)).
- b) Please indicate the grade and range of surface casing to be used, and it is recommended that at least 300 feet of surface pipe be set rather than the 200 feet specified on your applications.
- c) Further, it is necessary that you list your estimated formation tops, and indicate the type and subsequently the testing procedures to be followed for the blowout prevention equipment to be installed.
- d) Please indicate the proposed logging and coring program to be followed.

- e) Rule C-4(a) requires that all "Applications for Permit to Drill" be accompanied by a plat of the proposed well location prepared by a licensed surveyor or engineer.
- f) Rule A-4, requires that each operator conducting business in the State of Utah file a "Designation of Agent" with this Division, forms for which have been enclosed.

At such time as the above information is forwarded to this Division and subsequently reviewed, your "Applications for Permit to Drill" will be again considered for approval.

Should you have any questions relative to the above, please do not hesitate to call or write.

Very truly yours,

Gentlemen:

We appreciate your letter delineating those areas with which we are not in compliance for the drilling of the subject wells. Both wells are playing a water level and a pinch out to be optimately located. While we are unsure of the exact locations of these controlling features, we feel that the locations on the two subject wells have minimized the risk of either finding a sand absent or wet. Therefore, we request that an exception to Rule C-3(c) be granted. We do agree to run 300' of surface pipe, weight and grade attached. You will find your requested information on the attached forms which should be sufficient for your approval.

If you have any other questions or difficulties, do not hesitate to give me a call at the above telephone number.

Very truly yours,

Ronald W. Chapman

As above

1. The geological name for the surface formation is the Green River Formation of Middle Eocene Age.
2. The estimated tops of important geological markers with depths calculated from an estimated RKB elevation of 8338' are as follows:

Green River	0'
TGR 3	3580'
Wire Fence	4650'
Wasatch	5330'
Total Depth	5890'

3. Of the formations listed above, it is anticipated that the Castlegate and Emery formations may be gas bearing in the well.
4. The proposed casing program for completion of this well will consist of four and one-half inch, 11.6 pound J-55 new casing.
5. The operator's minimum specifications for pressure control equipment is as follows:

A 10" Series 900 Hydril Bag type BOP and a 10" Double Ram Hydraulic unit with a closing unit will be utilized. Pressure tests of BOP's to 1000# will be made after installation and operation and will be checked daily.
6. It is proposed that the hole will be drilled to TD using KCL and water as necessary in order to clean the hole.
7. Auxiliary equipment to be used will be a Kelly Cock and a Float at the drill bit.
8. No coring or drill stem testing has been scheduled for this well. The logging program will consist of a bore hole compensated sonic log and a compensated neutron formation density log.
9. It is not anticipated that abnormal pressures or temperatures will be encountered nor that any other abnormal hazards such as hydrogen sulfide gas will be encountered in this area.
10. It is anticipated that this well will be commenced approximately June 15, 1977, and that the operation will last two weeks.

Dear Mr. Chapman:

We have recently noticed in the various trade journals that the operator of the above wells has been referred to as Phoenix Resources.

Insofar as this Office is concerned, no change of operator has been submitted. If a change has been made, please so certify and, if a bond or bonds are held by this Office in the name of King Resources, please notify us so that we may relinquish the old bond upon submittal of a new one.

Incidentally, this Office has not received the Log (Form OGC-3) of drilling so that we may remove them from our active drilling files.

RE: Phoenix Resources - Well No. Wolf Hollow 22-1
API #43-013-30425 - Sec. 22, T. 6S., R. 5W.

I contacted Benna Muth at the BLM in Vernal about a month ago regarding the address of the operator on this well. I called again today to see if she had any further information. She has been able to contact Phoenix Resources at P.O. Box 99300, Oklahoma City, Oklahoma 73199. She has requested all back production information from 1979 to the time they sold their interest in the well in July of 1985. She has also requested a change of operator. She will forward copies of all the information she receives to this office to my attention.

Dear Mr. Jacobs:

We have reviewed your Sundry Notices requesting a Change of Operator for the referenced wells.

According to our records C&J Exploration, Inc. has 20% interest as Lessee of Record Title on Lease U-8897, and Southern California Mergers & Acquisitions, Inc. has the remaining 80% interest. Both parties have self-certified they have the right to operate upon the leasehold premises.

Regulation 43 CFR 3161.2 gives the Authorized Officer responsibility to approve and monitor proposals for drilling, development or production of oil and gas, and govern specific lease operations. It is in the best interest of the public there be only one recognized operator for each well. In order to avoid repetitious changes in operator for these wells the majority operating rights holder will be recognized as the operator of record. Therefore, your request for Change of Operator is denied.

You may appeal this decision by requesting a State Director Review, in accordance with regulations in Title 43 CFR 3165.

If you have any questions concerning this matter, please contact Margie Herrmann or Pat Sutton of this office at (801) 789-1362.

Sincerely,

A handwritten signature in black ink, appearing to read "Howard B. Cleavinger II". The signature is fluid and cursive, with the first name "Howard" and last name "Cleavinger" being more legible than the middle initial "B".
